

I have my phone service through Bell South. I have signed up with MCI for long distance service and MCI will bill my credit card. Bell South will not remove the long distance block off my phone so that I can use MCI. There must be a law against one company having so much control. Why can I not choose who to have long distance through and how I pay for it? You may call me at 904-733-2842. Thank you
